INTRODUCING REPAIR COLLECTION

After entering the technical soles market, JV decided to move forward by developing an exclusive line dedicated to the repair market. The action is directly managed by JV International which is the global strategic partner chosen by MICHELIN for the design, development and manufacturing of high-performance MICHELIN-branded technical soles. JVI takes care of the development and distribution of the repair collection which includes: heels, soles, half soles and rubber sheets.

PRESENTAZIONE DELLA COLLEZIONE PER LA RIPARAZIONE

Dopo l'entrata nel mercato delle soles tecniche, JV ha deciso di andare avanti sviluppando anche una linea esclusiva dedicata al mercato della riparazione.

La gestione è direttamente in mano a JV International che è il partner strategico globale scelto da MICHELIN per la progettazione, lo sviluppo e la produzione di soles tecniche ad alte prestazioni a marchio MICHELIN.

JVI si occupa dello sviluppo e della distribuzione della collezione riparazione che comprende: tacchi, soles, mezze soles e lastre in gomma.

PRESENTACIÓN DE LA COLECCIÓN PARA REPARACIÓN

JJV tras su entrada en el mercado de las suelas técnicas, decidió desarrollar una colección exclusiva específica para el mercado de las reparaciones.

La acción es gestionada directamente por JV International, que es el socio estratégico global elegido por MICHELIN para el diseño, desarrollo y producción de suelas técnicas de alto rendimiento bajo la marca MICHELIN.

JVI se encarga del desarrollo y distribución de la colección de reparación que incluye: tacones, suelas, medias suelas y planchas de caucho.

COMPOUND

COMPOUND	AIMS AND PERFORMANCES			DENSITY (KG/CM ³)	HARDNESS (SHORE A)	RESISTANCE TO ABRASION (MM ³)
CRX	Engineered compound for urban contexts. The higher resistance to abrasion guarantees great durability.	Miscela sviluppata per contesti urbani. L'alta resistenza all'abrasione garantisce una grande durata.	Mezcla concebida para contextos urbanos. La mayor resistencia a la abrasión garantiza una gran durabilidad.	1,15-1,18	85±3	<110
CRR	Engineered compound for urban contexts with a higher Shore value.	Miscela sviluppata per contesti urbani ma con un valore Shore più elevato.	Mezcla desarrollado para contextos urbanos pero con un valor Shore más alto.	1,18-1,20	90±3	<140
CRS	Compound that guarantees stability, traction and great abrasion resistance on outdoor and uneven terrains thanks to a lower shore.	Miscela che garantisce stabilità, trazione e grande resistenza all'abrasione su terreni irregolari e outdoor grazie ad un basso valore di durezza.	Mezcla que garantiza estabilidad, y elevada resistencia a la tracción y a la abrasión en terrenos irregulares al aire libre gracias a su menor dureza.	1,08-1,14	68±3	<100
ERL	Compound made of expanded materials that guarantees every light material, maintaining comfort and adherence on different surfaces	Miscela di materiali espansi che garantisce leggerezza mantenendo confort ed aderenza su differenti superfici.	Mezcla de material expandido que garantiza ligereza y al mismo tiempo confort y agarre sobre suelos diferentes.	0,55-0,65	55±5	<300
UC	Engineered compound for urban and outdoor use. Compound that guarantees stability, grip and great abrasion resistance on outdoor and uneven urban terrains.	Miscela sviluppata per utilizzi urbani ed outdoor. Una miscela che garantisce stabilità, ed una buona adesione ai pavimenti scivolosi, ma anche un'ottima durabilità e resistenza all'abrasione per un uso esterno.	Mezcla concebida en el ámbito urbano y exterior. El compuesto proporciona estabilidad, agarre y gran resistencia en terrenos en áreas urbanas desiguales y al aire libre.	1,12-1,18	68±3	<100
OC	Engineered compound for outdoor use. Compound that guarantees stability, traction and great abrasion resistance on outdoor and uneven terrains thanks to a low shore number.	Miscela sviluppata per utilizzo prevalente in outdoor. La miscela garantisce stabilità, trazione e grande resistenza all'abrasione su terreni outdoor ed irregolari grazie ad un basso valore di durezza.	Mezcla concebida en el ámbito exterior. El compuesto garantiza estabilidad, adherencia y resistencia a la abrasión gracias a un reducido número de Shore.	1,08-1,14	68±3	<110
BRX	Compound that guarantees great elasticity, softness and lightness	La miscela garantisce grande elasticità, morbidezza e leggerezza.	Compuesto que garantiza una alta elasticidad, suavidad y ligereza.	0,50±0,05	55±3	<250
UCX	Compound developed for urban, indoor and outdoor use. It guarantees stability and adhesion on slippery surfaces as well as excellent durability and abrasion resistance on uneven terrain	Miscela sviluppata per utilizzi urbani, indoor ed outdoor. Garantisce stabilità e aderenza su superfici scivolose oltre ad un'ottima durabilità e resistenza all'abrasione anche su terreni irregolari.	Compuesto desarrollado para uso urbano, interior y exterior. Garantiza estabilidad y adherencia en superficies resbaladizas, así como una excelente durabilidad y resistencia a la abrasión incluso en terrenos irregulares.	1,04-1,10	55±3	<80

CITY

URBAN SHOES

URBAN SHOES

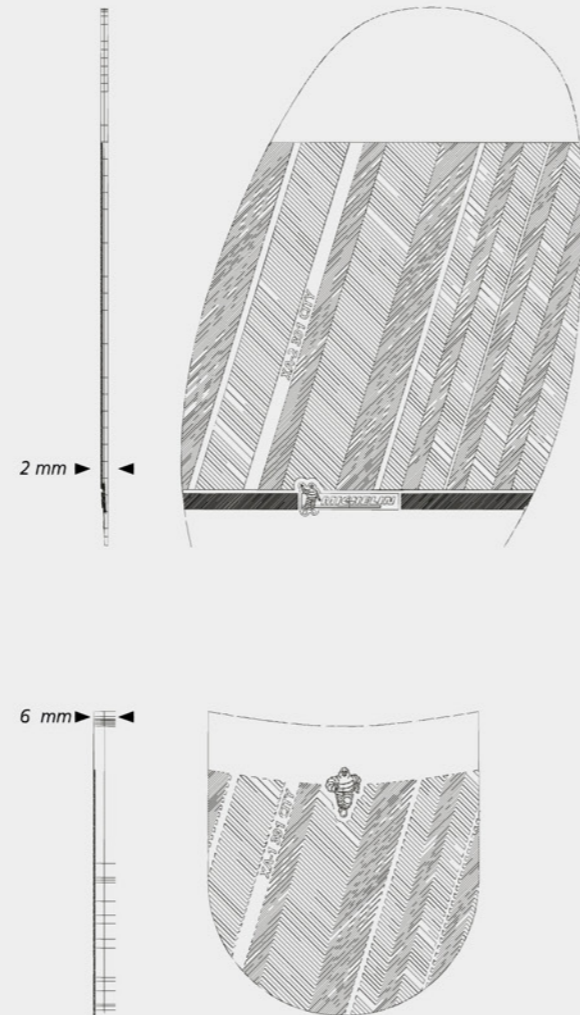

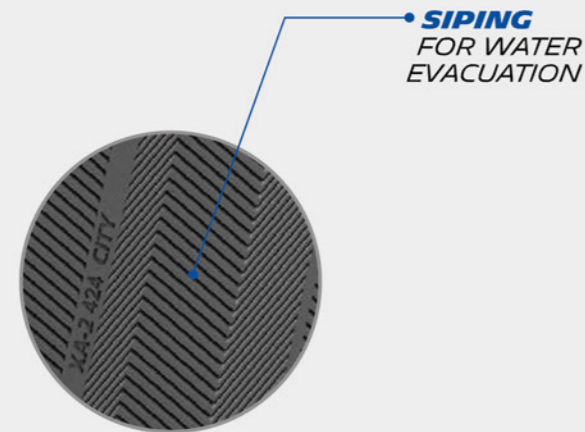

The CITY half sole and heel are inspired by the shoulder texture of MICHELIN® tyres, and are a twist on the classic multiline. They provide perfect protection to new shoes and are ideal for a rapid resole.

SUOLE DA CITTÀ

Rivisitazione del classico millerighe, la mezza-suola ed il tacco CITY si ispirano al disegno delle spalle degli pneumatici MICHELIN®. Perfetti per proteggere le soles di scarpe nuove e ideali per una risuolatura veloce.

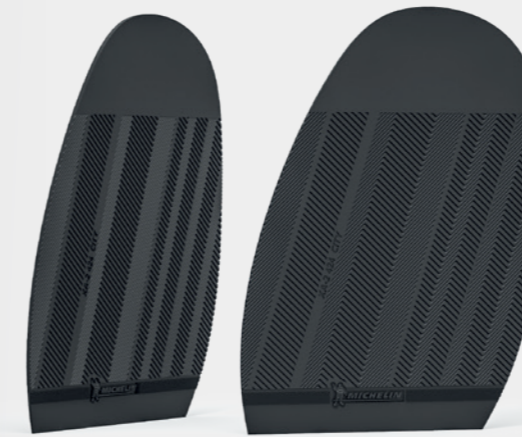

CALZADO URBANO

La media suela y la tapa CITY son una adaptación del dibujo milrayas clásico del hombro de los neumáticos MICHELIN®. Perfecto para proteger la suela de los zapatos nuevos y excelente para un cambio de suela rápido.

MODERN

URBAN SHOES FOR A YOUNGER TARGET

URBAN SHOES FOR A YOUNGER TARGET

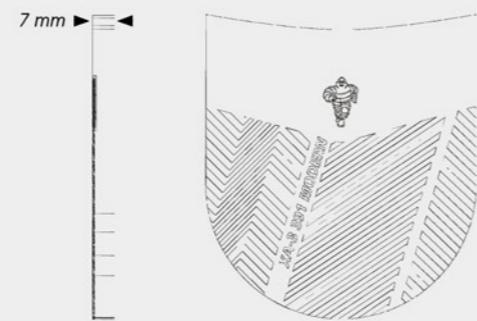

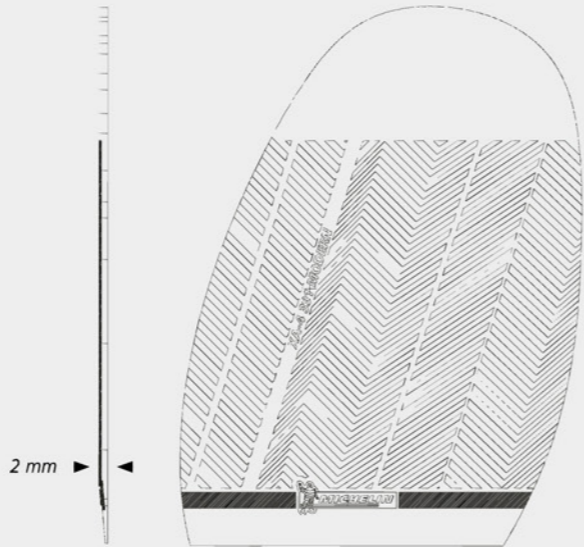

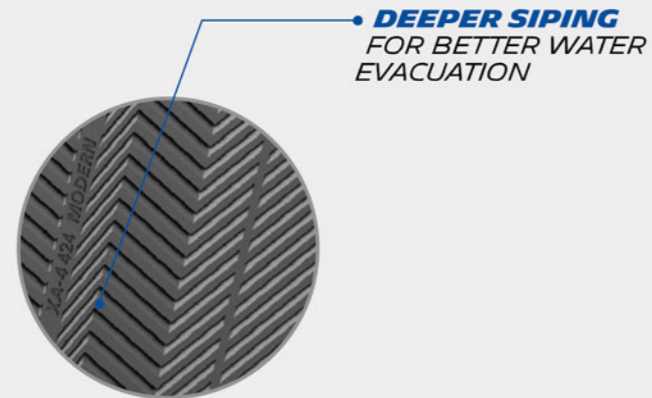

Also Inspired by the texture of MICHELIN® tyres, the MODERN half sole and heel are designed with a more aggressive outline and a deeper siping. This provides better water evacuation for a reduced risk of slipping.

SCARPE DA CITTÀ CON UN LOOK GIOVANE

Ispirandosi alla struttura degli pneumatici MICHELIN® la mezza suola ed il tacco MODERN hanno un profilo aggressivo ed una laminatura profonda che permettono un miglior drenaggio dell'acqua riducendo il rischio di scivolare.

CALZADO JUVENIL URBANO

Inspirándose en la estructura de los neumáticos MICHELIN®, la media suela y la tapa MODERN tienen un perfil agresivo y laminillas profundas para expulsar mejor el agua y reducir el riesgo de resbalones.

RAIN

RAIN SHOES FOR AN URBAN CONTEXT

Inspired by MICHELIN® Pilot Road and the XST technology (X-Sipe Technology), the RAIN half sole and heel are optimal on wet surfaces. The adaptation of the X-Sipe technology, that incorporates siped and water reservoir, improves water evacuation and guarantees better adherence on wet surfaces reducing the risk of slipping.

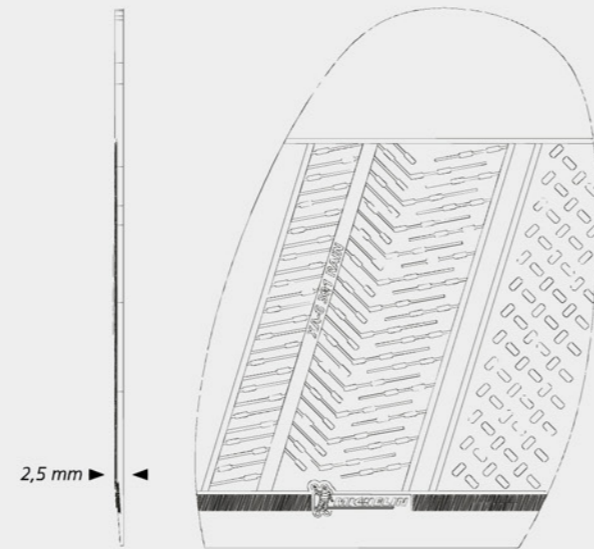

SCARPE DA CITTÀ PER LA PIOGGIA

Ispirate allo pneumatico MICHELIN® Pilot Road ed alla tecnologia XST (X-Sipe Technology), la mezza suola e il tacco RAIN sono ottimi sulle superfici bagnate. L'adattamento della tecnologia X-Sipe, che integra lamelle ed alveoli, migliora il drenaggio dell'acqua garantendo una maggior aderenza sul bagnato e riducendo drasticamente il rischio di scivolare.

CALZADO URBANO PARA LA LLUVIA

Inspirándose en el neumático MICHELIN® Pilot Road y en la tecnología XST (X-Sipe Technology), la media suela y la tapa RAIN son excelentes para las superficies mojadas. La adaptación de la tecnología X-sipe, que incorpora laminillas y hoyuelos, mejora la expulsión del agua y garantiza mejor adherencia sobre superficies mojadas reduciendo el riesgo de resbalones.

OUTDOOR

OUTDOOR SPORTS SHOES

Inspired by the racing tyre MICHELIN® Pilot Cup, the OUTDOOR half sole and heel are designed to improve adaptability to different terrains. This is thanks to the siping on the external shoulder as well as the central longitudinal grooves that provide optimal self-cleaning and better stability.

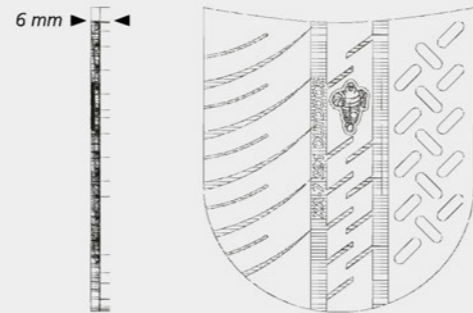

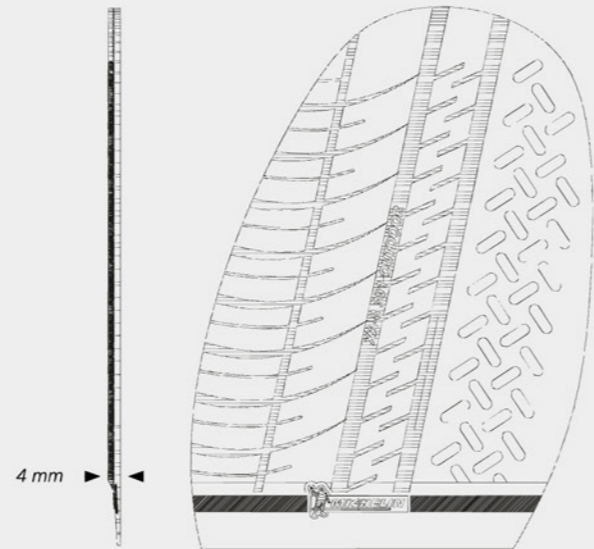

SCARPE SPORTIVE OUTDOOR

Ispirandosi allo pneumatico da circuito MICHELIN® Pilot Cup, la suola ed il tacco OUTDOOR permettono un'eccezionale adattabilità a tutti i tipi di terreno. Le lamellature laterali e le scanalature longitudinali centrali sono autopulenti e conferiscono una stabilità ottimale.

CALZADO DEPORTIVO OUTDOOR

Inspirándose en el neumático para circuitos MICHELIN® Pilot Cup, la media suela y la tapa OUTDOOR se diseñaron para mejorar la adaptabilidad a todo tipo de terreno. Se ha logrado gracias a las laminillas laterales como también a las estrias longitudinales centrales que proporcionan autolimpieza óptima y mejor estabilidad.

WINTER

URBAN AND COUNTRY WINTER SHOES

The WINTER half sole and heel were inspired by the MICHELIN® X-Ice North range tires. The aggressive tread design is ideal for winter conditions and provide optimal stability, traction and self-cleaning abilities.

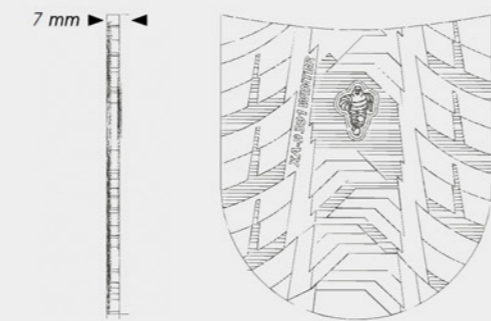

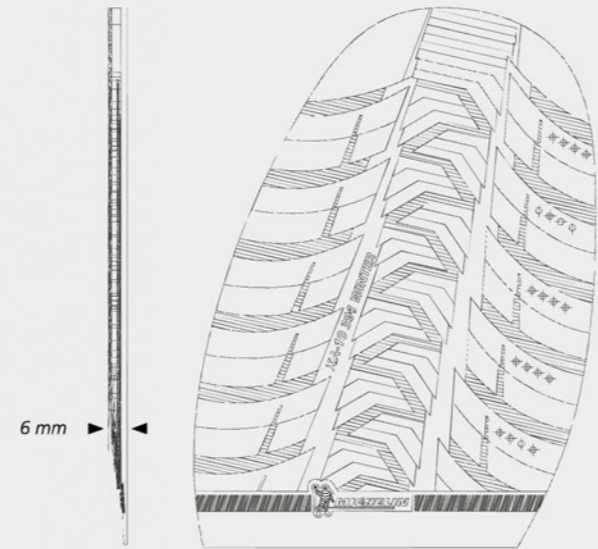

SCARPE INVERNALI DA CITTÀ E COUNTRYSIDE

La gamma di pneumatici MICHELIN X-Ice North è l'ispirazione per la mezza suola ed il tacco WINTER. Il disegno aggressivo del battistrada è perfetto per le condizioni invernali, autopulente e con ottime caratteristiche di stabilità e trazione.

CALZADO DE INVIERNO URBANO Y DE CAMPO

La media suela y la tapa WINTER se inspiraron en la gama de neumáticos MICHELIN X-Ice North. El diseño agresivo de la banda de rodadura es perfecto para las condiciones invernales, proporciona características óptimas de estabilidad, tracción y autolimpiantes.
